# New & Upgraded

## Our New Team Members & Promotions

### Shea Nangle

#### Chief Operating Officer

Shea has over 25 years of experience, with a focus on organizational change, security consulting, and compliance. He has worked with and for companies ranging from startups to very large multinational organizations, joining us with a diverse portfolio of leadership roles. His passion for helping companies grow and mature has taken him to both domestic and international stages, speaking on a wide range of topics including OPSEC, Federal compliance, and disinformation. Shea's areas of research include elicitation, disinformation, organizational change,

# Our New Certifications

What We Can Do For You

We're always leveling up our certifications. Here are one of the many skills our team members have achieved!

**Simon Abisoye**

Solutions Architect - Professional

**Otis Thrasher**

Solutions Architect - Professional

**Eric Evans**

AWS Certified Developer - Associate

**Bethany Jug**

AWS Partner: Sales Accreditation

**Eric Evans**

Security+

**Eric Evans**

Google Cloud Developer - Professional

# Celebrating Culture

How We're Changing the Industry Standard

**HANA**BYTE  
PRIDE Pawsitivity 2024

## #PRIDEunleashed

We're Celebrating Pride Month!

This year our campaign is about highlighting the active history of Pride Month. We are looking to represent the sweeping organic spectrum of colors that exists within the LGBTQIA+ community. We want to ask the questions that aren't being asked enough as we face the challenges of creating a more inclusive workspace.

One of the ways that HanaByte is leading the pack, is by taking special care to craft policies that encapsulate our people-first approach. One way that we're providing support is through our inclusive family support options! Our parental leave policy allows for genderless leave allowances for expanding families. Whether you're having the baby or a spouse or partner, we encourage time off for bonding. Additionally, we recognize surrogacy, fostering, and adoption into our policies as well.

Another way that we're making conscious changes is by re-evaluating ourselves. HanaByte has actively made updates to our handbook this year after a careful review of possible exclusionary language. Making small changes to inclusivity and making sure to highlight non-gendered terminology is a completely free audit process that companies can implement to make their employees feel more seen from an operational level up.

# Event Attendance

Being Present in Cybersecurity Dialogue

## AWS re:Inforce 2024

The pack was in attendance again this year for AWS re:Inforce in Philadelphia, Pennsylvania! It was an exhilarating showcase of GenAI magic, with a central theme of supercharging and automating security operations. AWS dazzled us with its internal security prowess, blocking a whopping 24 billion S3 Bucket pokes and nearly 2.6 trillion EC2 scans in the past year alone! These jaw-dropping numbers remind us just how dedicated AWS is to keeping our data fortress secure. Highlights included the shiny new malware protection for S3 with Amazon GuardDuty and the wizardry of automated reasoning to free up our security pros for the really juicy stuff.

The keynote was a treasure trove of goodies, introducing Amazon Bedrock's top-notch security features, like airtight data isolation and engineer-proof customer data. The team also got a sneak peek at the CloudTrail Lake preview with nifty Jira integration for zippy incident responses. AWS isn't just playing it safe—they're leading the charge with cutting-edge GenAI and zero-trust solutions. Workshops and talks were a blast, delving into GenAI-powered Amazon Security Lake, the flexible Cedar Policy Language for customized access control, and tackling AI model risks with the cool STRIDE framework. It's clear AWS is not just keeping up—they're setting the pace in the race for top-tier security!

# Event Attendance

Being Present in Cybersecurity Dialogue

## fwd:cloudsec 2024

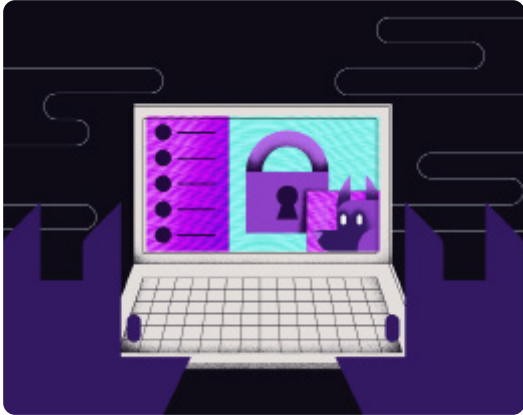

The HanaByte pack had a blast at fwd:cloudsec in Arlington, VA! Our team enjoyed meeting and interacting with other professionals at the event. They especially loved the numerous amazing talks they attended, including the insightful session on “Responding to Sophisticated Ransom Attacks in the Cloud” by Yotam Meitar from Wiz.

One of the key takeaways from this talk was the importance of investing in good security, regardless of the perceived value of your data. Not all attackers are after data alone. The talk highlighted the need to prepare for high-speed leak investigations, ensure comprehensive data logging, and implement centralized forensics and logging across the cloud. With ransomware on the rise, keeping the cloud secure is more important than ever. At HanaByte, the team is here to help with a range of services, including data security and compliance. Our Identity and Access Management (IAM) and Zero Trust services ensure that only verified users can access sensitive resources, reducing the risk of breaches and cyber-attacks.

Want to know more about how to keep your cloud safe? Follow HanaByte on social media and check out [hanabyte.com](https://hanabyte.com) for more information!

# Upcoming Events

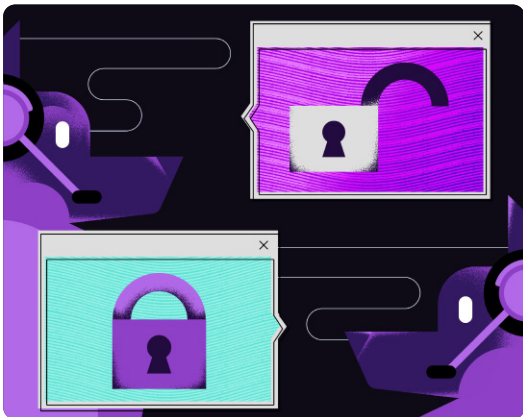

Meetups & Talks Happening Soon

## HanaByte Monthly Webinar

06.27.24 | 6:00 PM EST

Join us today at 6 PM to dive into Emerging Trends in Cybersecurity with our experts! Our paw-some Chief Operating Officer, Shea Nangle, and Senior Consultant, Patrick Davis, will be sharing their valuable insights. Learn about crucial topics such as AI and Cloud Security in this must-watch webinar. At HanaByte, we're all about making security easy and hassle-free for you. We offer a variety of services including security, compliance, cloud migration, DevOps, and more. No matter which sector you're in, we have the expertise to keep you secure.

## Weekly Office Hours

06.28.24 | 11:30 AM EST

It's another week of Office Hours here at HanaByte! Don't forget to join us on Discord for every week from 11:30 AM to 1:00 PM. For more information see [hanabyte.com/events](https://hanabyte.com/events)

# Want to Collaborate?

Check Our Our Available Opportunities

## Become a Speaker

We're all about uplifting voices in the industry and we want to work with you. Reach out to us today about opportunities to collaborate and present through one of our hosted events online or in-person.

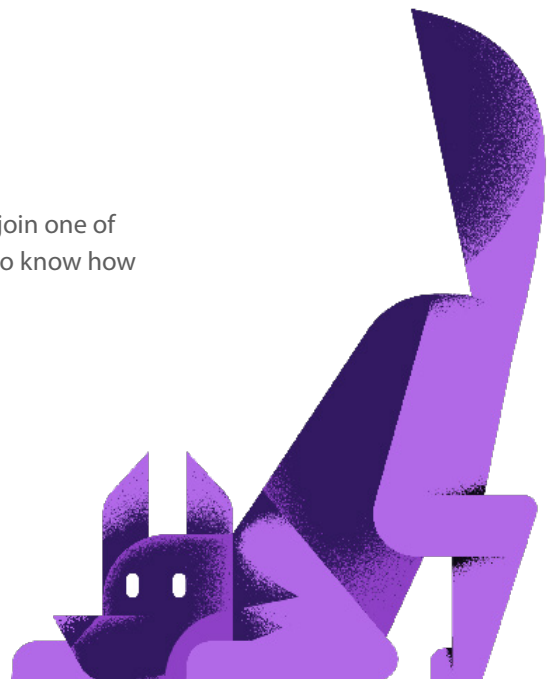

## Come & Mingle

We're getting together to present and learn! Join us at one of our in-person events or meet up with us at one of our conference events. We're open for business meetings throughout the year so find out when we can get together and chat!

## Workshops

We're offering new ways to get to know Cybersecurity. You can join one of our workshops as an attendee or contributor in 2024. Let's get to know how we can work together to help grow your knowledge!
